Solar is Now 'Cheapest Electricity in History', Confirms IEA

The world's best solar power schemes now offer the "cheapest...electricity in history" with the technology cheaper than coal and gas in most major countries. That is according to the International Energy Agency's World Energy Outlook 2020.

How to Have Your Solar Farm and Keep Your Regular Farm, Too

Clean, abundant, solar power comes with a price. It requires lots of land, and in some places that's provoking opposition from people who want to preserve farmland. In southern New Jersey, for instance, a company called Dakota Power Partners wants...

From making a small calculator work to generating energy to produce the entire output of an important brewery, solar energy has been undergoing significant growth in recent years, taking the place of nonrenewable energy resources that negatively...

What to Consider When Deciding if Solar Energy is Right...

The first time Eric and Amy Forseter got bids to put solar panels on their East Bethesda home about five years ago, the payback wasn't there. But by 2018 the technology had improved enough and the prices were lower so they decided it was worth...
