## Presentation Summaries

Title:

Best Practices in Operation and Maintenance of Photovoltaic and Energy Storage Systems

Author:

Andy Walker PhD PE

This presentation listed out accomplishments of the PV O&M Working Group

(http://sunspec.org/operations-maintenance-workgroup) including:

"Best Practice in Photovoltaic System Operation and Maintenance 2<sup>nd</sup> Edition"

(http://www.nrel.gov/docs/fy17osti/67553.pdf)

PV O&M Cost Model

(https://sunspec.org/wp-content/uploads/2016/03/SunSpecPVOMCostModelUserManual-Beta.pdf)

Open Solar Performance and Reliability Clearinghouse (oSPARC) database:

(<a href="http://sunspec.org/osparchelp/">http://sunspec.org/osparchelp/</a>)

Sandia PV ROM PV Failure and Reliability Database:

http://energy.sandia.gov/tag/pvrom/

"Operations and Maintenance for Optimal Photovoltaic System Performance," FEMP eTraining core course. <a href="https://www.energy.gov/eere/femp/articles/femp-offers-new-etraining-course-om-optimal-pv-performance">https://www.energy.gov/eere/femp/articles/femp-offers-new-etraining-course-om-optimal-pv-performance</a>

"O&M Best Practices for Small-Scale PV Systems" 1.5 hour video training; 0.2

CEU; <a href="https://www4.eere.energy.gov/femp/training/training/om-best-practices-small-scale-pv-systems">https://www4.eere.energy.gov/femp/training/training/om-best-practices-small-scale-pv-systems</a>
